

MATH, ARTS, SCIENCE ACHIEVEMENT CENTER

For High Achieving and Talented Youth
Summer 2018

MASA is a program that provides opportunities for high achieving and gifted students to be in a comfortable and safe environment with like-minded peers to comprehend, apply, explore, analyze, discover, and evaluate concepts while motivating one another. The organization provides an environment where students can challenge themselves and exercise their critical thinking skills. MASA nurtures the unique needs of every student while encouraging the development of our future scientists, mathematicians, writers, and thinkers to delve deeper and reach their true potential. Our programs offer students challenging educational opportunities through hands on activities and inquiry based instruction that allow them to develop their intellect, use higher cognitive skills to create and to invent.

Grades 1-2 (Fall 2018)

June 11-15: Transformers: Join the transformers from Cybertron! Autobots and Decepticons will be building their own robots and mega machines. Be a junior engineer and build a Devcon Cyber Racer to race your opponents. Design and construct Omega Supreme Rocketship, Scrapper front end loader and bulldoze the villains!

June 18-22: Descendants: Use your magical power to locate the wand. With the wand you will have the power to contain the villain in the Isle of the Lost once and for all. Be prepared to be dazzled by the magic of chemistry and reactions as we create potions to prevent Ulma and Gil from turning evil. Make amazing mixtures and solutions that will bedazzle you.

Grades 3-4 (Fall 2018)

June 11-15: Transformers: Come join the transformers from Cybertron! Autobots and Decepticons will be building their own robots and mega machines. Build cybertorian cars and race them, explore Optimus Prime numbers, build transformers and towers and have a tower building competition. Autobots vs. Decepticons!

June 18-22: Descendants: Use your magical power to locate the wand. You will have the power to contain the villain in the Isle of the Lost once and for all. Be prepared to be dazzled by the magic of chemistry and reactions as we create potions. Use mother's magic mirror to learn how light behaves and join King Ben solving with puzzles and mental problems.

Grades 5-8 (Fall 2018)

June 11-15: Transformers: Join the transformers from Cybertron! Autobots and Decepticons will be building their own robots and mega machines. Build motorized transformers and race them. Be an engineer for a week and experience the design process through design challenges - build towers, hovercrafts and battle robots.

June 18-22: Descendants: With the wand you will have the power to contain the villain in the Isle of Lost once and for all. Use Evie's spells to oxidize and vaporize your enemies. Be prepared to be dazzled by the magic of chemistry and reactions as we create potions to prevent Ulma and Gil from turning evil. Make magical, colorful, erupting portions.

WINTER PARK LOCATION

Dates: June 11-15, June 18-22
Where: 5700 Trinity Prep Ln., Winter Park, FL 32792. (Trinity Prep School)
Time: 8:30am-2:30pm, Grades: 1-8 (Fall 2018)
Register before May 1 for discount.

MELBOURNE LOCATION

Dates: June 11-15, June 18-22
Where: 5625 Holy Trinity Drive; Melbourne, FL 32940 (Holy Trinity Episcopal Academy)
Time: 9:00am-3:00pm, Grades: 1-8 (Fall 2018)
Register before May 1 for discount
